

Accompaniment Score Package Licensing Agreement

Thank you for purchasing an Accompaniment Score Package from Baytone Music. With this purchase, you have entered into a song licensing agreement with Baytone Music. The details of that agreement appear below. This page and the invoice that came with your order will be the only documentation of this agreement that you receive and should be kept by you on file along with a copy of the score.

Baytone Music hereby grants to you permission to print and maintain up to 5 copies of the attached score. This permission applies only to the congregation for which the score package was originally purchased. Neither this license nor any of the copies of the score may be sold or distributed to any other congregation or individual. You may copy or reprint the score in order to replace lost or destroyed copies but you may never hold more than 5 copies at any given time.

Purchase of this Accompaniment Score Package does NOT include permission to make copies or project the song for the congregation. This song is covered for congregational use by the following licenses:

- OneLicense.net
- [Augsburg Fortress Hymns](#)

If your congregation does not already have an annual license with one of these companies, or if you would like to secure one-time or special event permission for use, follow one of the links above for more information.
