

Performance Score Package – 25+ copies - Licensing Agreement

Thank you for purchasing a *Performance Score Package* from Baytone Music. With this purchase, you have entered into a song licensing agreement with Baytone Music. The details of that agreement appear below. This page and the invoice that came with your order will be the only documentation of this agreement that you receive and should be kept by you on file along with a copy of the score.

Baytone Music hereby grants to you permission to print and maintain as many copies of the attached score as you need. This permission applies only to the congregation for which the score package was originally purchased. Neither this license nor any of the copies of the score may be sold or distributed to any other congregation or individual.

Purchase of this *Performance Score Package* also includes permission to make copies and/or project the song text (not music) for the congregation. This specific use does not fall under the congregational reprint licenses that you may have purchased from OneLicense, LicensingOnline, or Augsburg Fortress, so please do not attempt to include such use in your regular reporting to these organizations.
